Summary

I am a committed Bachelor of Technology student majoring in Computer Science and Engineering with a firm CGPA of 8.74. I have a background in backend development and technical competence in C, Python, and JavaScript. My ability to design secure APIs and implement authentication techniques sets me apart in the tech industry. I am passionate about learning the latest technologies and solving complex problems.

Education

Gokaraju Rangaraju Institute of Engineering and Technology   Sep. 2023 – Graduating July 2027
Bachelor of Technology in Computer Science and Engineering — Current CGPA: 8.74/10   *Hyderabad, Telangana*

Relevant Coursework

- **Data Structures**
- **Database Management**
- **Web Development**

Technical Skills

Languages: C, Python, HTML/CSS, JavaScript, SQL
Developer Tools: VS Code, MySQL, Git, GitHub
Technologies/Frameworks: Django, React.js, CSS

Projects

Real-Time Chat Application | *JavaScript, React.js, Django, Sqlite3*   Febraury 2025

- Developed a real-time chat application using Django and React.js, enabling instant messaging with a modern UI.
- Integrated Django Channels & WebSockets to provide seamless real-time communication between users.
- Implemented JWT-based authentication for secure user logins and session management.
- Utilized Sqlite3 for efficient storage of chat histories, user data, and media files.
- Built a responsive frontend with React.js and CSS for a smooth and interactive user experience.

Interests & Hobbies

Programming: Exploring backend development, optimizing algorithms
Technology: Web development
Sports & Activities: Watching Movies, Cricket
Personal Interests: Reading tech blogs, Problem-solving on coding platforms, Gaming, Video Editing
